SUMMARY

Dynamic Software Engineer with 2+ years of experience in web development, specializing in React. Proven skills in Git collaboration and front-end development, ability to collaborate effectively in team environments, mentor peers, and manage projects to successful completion. Adept at technical mentoring and leadership, continuously seeking to learn and grow. Passionate about AI advancements and nurturing the talents of the next generation. Enthusiastic about contributing to the growth and success of organizations.

EXPERIENCE

Career Ambassador – Moringa School (May 2024 – Present)
Collaborated with the Outcomes and Career Graduate Team to support students' career readiness and job search efforts.
Key Responsibilities:
- **Student Mentorship and Guidance:** Provided one-on-one career guidance to Moringa students, mentoring them on resume building, LinkedIn optimization, personal branding, and interview preparation.
- **Career Workshops Facilitation:** Assisted in organizing and facilitating career-focused workshops and events to improve students' employability and job readiness.
- **Networking and Industry Connections:** Facilitated networking opportunities by connecting students with industry professionals and recruiters through events and online platforms.
- **Graduate Follow-Up:** Followed up with recent graduates to encourage their participation in career activities and monitor post-graduation career progression.
- **Event Coordination:** Collaborated with the Moringa Outcomes team to plan and execute events such as career fairs, alumni talks, and employer engagement activities.
